Beta Transactional FMSFIE Tables

Date: March 20, 2003

KEY COL	TABLE PHYSICAL CODE	TABLE COMMON NAME	TABLE PHYSICAL NAME	SET NAME	CLASS NAME	SUBCLASS NAME	FAMILY NAME	DEFINITION
1	amcorbasnonast	Asset	ASSET	assets	core	Base	None	This table contains information about federal real property and other related entities based on their classification and need to support organizational requirements
2	amcorbasnonctf	Constant Factor	CONSTANT_FACTOR	assets	core	Base	None	This table contains information about a constant or factor used in a business rule or calculation
3	amcorbasnongls	Glass	GLASS	assets	core	Base	None	This table contains information about the glass that exists in a door, window or asset object
4	amcorbasnonocs	Object Cost	OBJECT_COST	assets	core	Base	None	This table contains information about the costs that are associated to an asset object
5	amcorbasnonofd	Object Funding	OBJECT_FUNDING	assets	core	Base	None	This table contains information about the fundings that are associated to an asset object
6	amcorbasnonofe	Object Feature	OBJECT_FEATURE	assets	core	Base	None	This table contains information about the features that an asset object possesses
7	amcorbasnonofu	Object Function	OBJECT_FUNCTION	assets	core	Base	None	This table contains information about the functions that an asset object performs
8	amcorbasnonogd	Object Graphic Data Link	OBJECT_GRAPHIC_DATA_LINK	assets	core	Base	None	This table contains information about a graphical data system's association to an asset object
9	amcorbasnonolo	Object Location	OBJECT_LOCATION	assets	core	Base	None	This table contains information about the location of an asset object
10	amcorbasnonont	Object Note	OBJECT_NOTE	assets	core	Base	None	This table contains information about the notes, comments, or memos that are associated to an asset object
11	amcorbasnonoog	Object Organization	OBJECT_ORGANIZATION	assets	core	Base	None	This table contains information about the organizations which are associated to an asset object including those organizations, or agencys with legal control or management responsibility for the object
12	amcorbasnonopm	Object Permit	OBJECT_PERMIT	assets	core	Base	None	This table contains information about the permits that are associated to an asset object
13	amcorbasnonopr	Object Person	OBJECT_PERSON	assets	core	Base	None	This table contains information about the people that are associated to an asset object
14	amcorbasnonosp	Object Specification	OBJECT_SPECIFICATION	assets	core	Base	None	This table contains information about the specifications or characteristics of an asset object that have a numerical value and a unit of measure
15	amcorbasnonost	Object Status	OBJECT_STATUS	assets	core	Base	None	This table contains information about the status of an asset object

KEY COL	TABLE PHYSICAL CODE	TABLE COMMON NAME	TABLE PHYSICAL NAME	SET NAME	CLASS NAME	SUBCLASS NAME	FAMILY NAME	DEFINITION
16	amcorbasnonpom	Asset Person Object Milestone	ASSET_PERSON_OBJECT_MILESTONE	assets	core	Base	None	This table contains information about the events during an asset object's lifecycle
17	amcorbasnonprm	Permit	PERMIT	assets	core	Base	None	This table contains information about a permit
18	amcorbasnonscu	Space Usage	SPACE_USAGE	assets	core	Base	None	This table contains information about the function or purpose of a space component
19	amcorbasnonspc	Space	SPACE	assets	core	Base	None	This table contains information about a space component which defines a specific boundary or zone within an asset
20	amcorbasrefacr	Asset Class	ASSET_CLASS_REF	assets	core	Base	Reference	This table contains reference (domain) information about DoD defined classes and those sub-classes in which they can be divided. Also within the table are groupings of assets that are not DoD defined classes but ones that are of practical use
21	amcorbasrefbcc	DoD Basic Category Code	DOD_BASIC_CATEGORY_CODE_REF	assets	core	Base	Reference	This table contains reference (domain) information about the DoD standard code that classifies asset objects by type or use
22	amcorbasrefccg	DoD Category Group	DOD_CATEGORY_GROUP_REF	assets	core	Base	Reference	This table contains reference (domain) information about an aggregation of one or more DoD basic category codes that have similar functional purpose
23	amcorbasrefccr	Category Code	CATEGORY_CODE_REF	assets	core	Base	Reference	This table contains reference (domain) information about particular uses of a real property. These codes are service specific
24	amcorbasrefcnt	Control Number Type	CONTROL_NUMBER_TYPE_REF	assets	core	Base	Reference	This table contains reference (domain) information about a grouping of control numbers based on their name or purpose
25	amcorbasrefcol	Color	COLOR_REF	assets	core	Base	Reference	This table contains reference (domain) information about colors and shades of colors
26	amcorbasrefcot	Color Type	COLOR_TYPE_REF	assets	core	Base	Reference	This table contains reference (domain) information about a grouping of parts or roles to which the color is applied on or to an asset object
27	amcorbasrefcst	Cost Type	COST_TYPE_REF	assets	core	Base	Reference	This table contains reference (domain) information about a grouping of costs associated to an asset object based on what the cost's purpose or use
28	amcorbasrefdlt	Data Link Type	DATA_LINK_TYPE_REF	assets	core	Base	Reference	This table contains reference (domain) information about the type of system or file with which the graphical data link is associated
29	amcorbasrefetr	Event Type	EVENT_TYPE_REF	assets	core	Base	Reference	This table contains reference (domain) information about the events in the lifecycle of asset objects

KEY COL	TABLE PHYSICAL CODE	TABLE COMMON NAME	TABLE PHYSICAL NAME	SET NAME	CLASS NAME	SUBCLASS NAME	FAMILY NAME	DEFINITION
30	amcorbasreffac	DoD Facility Analysis Category Code	DOD_FAC_ANALYSIS_CAT_CD_REF	assets	core	Base	Reference	This table contains reference (domain) information about a grouping of Service Category Codes (SCC) used to capture cost factors and units of measure
31	amcorbasreffcm	DoD FAC Code Measure	DOD_FAC_CODE_MEASURE_REF	assets	core	Base	Reference	This table contains information about the units of measures associated to a DoD FAC code
32	amcorbasreffdt	Funding Type	FUNDING_TYPE_REF	assets	core	Base	Reference	This table contains reference (domain) information about a grouping of fundings based on their use for an asset object or by an organization
33	amcorbasreffet	Feature Type	FEATURE_TYPE_REF	assets	core	Base	Reference	This table contains reference (domain) information about a grouping of features that an asset object may possess based on their name, function or similar characteristic
34	amcorbasreffit	Finish Type	FINISH_TYPE_REF	assets	core	Base	Reference	This table contains reference (domain) information about a grouping based on the materials applied to surfaces
35	amcorbasrefglt	Glass Type	GLASS_TYPE_REF	assets	core	Base	Reference	This table contains reference (domain) information about a grouping of glass based on their name, description or similar characteristic
36	amcorbasreficr	Investment Category	INVESTMENT_CATEGORY_REF	assets	core	Base	Reference	This table contains reference (domain) information about a grouping of category codes based on the mission they support
37	amcorbasrefmfg	Manufacturer	MANUFACTURER_REF	assets	core	Base	Reference	This table contains reference (domain) information about an organization that manufactures an asset object
38	amcorbasrefntt	Note Type	NOTE_TYPE_REF	assets	core	Base	Reference	This table contains reference (domain) information about a grouping of notes, comments, or memos based on their name or purpose
39	amcorbasrefobt	Object Type	OBJECT_TYPE_REF	assets	core	Base	Reference	This table contains reference (domain) information about a grouping of asset objects based on their name or similar characteristics
40	amcorbasrefowr	Ownership	OWNERSHIP_REF	assets	core	Base	Reference	This table contains reference (domain) information about a grouping based on the organization's legal or financial stake, right, or title to the asset
41	amcorbasrefpfu	Primary Function	PRIMARY_FUCTION_REF	assets	core	Base	Reference	This table contains reference (domain) information about a grouping used to distinguish one primary mission function from another concerning an installation site

KEY COL	TABLE PHYSICAL CODE	TABLE COMMON NAME	TABLE PHYSICAL NAME	SET NAME	CLASS NAME	SUBCLASS NAME	FAMILY NAME	DEFINITION
42	amcorbasrefpmt	Permit Type	PERMIT_TYPE_REF	assets	core	Base	Reference	This table contains reference (domain) information about a grouping of permits based on their name, use or description
43	amcorbasrefret	Relation Type	RELATION_TYPE_REF	assets	core	Base	Reference	This table contains reference (domain) information about a grouping of relationships between an organization and an asset object
44	amcorbasrefrrr	Readiness Rating	READINESS_RATING_REF	assets	core	Base	Reference	This table contains reference (domain) information about a grouping structured along two dimensions, missions (representative base missions) and asset categories (major resources available to accomplish the missions). Readiness rating (C1-C4) are given f
45	amcorbasrefsat	Status Type	STATUS_TYPE_REF	assets	core	Base	Reference	This table contains reference (domain) information about a grouping of statuses based on their name, function or description
46	amcorbasrefsct	Space Type	SPACE_TYPE_REF	assets	core	Base	Reference	This table contains reference (domain) information about a grouping of space based on their name, purpose or similar characteristics
47	amcorbasrefspt	Specification Type	SPECIFICATION_TYPE_REF	assets	core	Base	Reference	This table contains reference (domain) information about a grouping of numeric values with or without units based on their name, function, description or similar characteristics
48	amcorbasrefsts	Status	STATUS_REF	assets	core	Base	Reference	This table contains reference (domain) information about a grouping based on the standing of an asset object
49	amcorbasrefsut	Space Usage Type	SPACE_USAGE_TYPE_REF	assets	core	Base	Reference	This table contains reference (domain) information about a grouping of space based on their fuction or use
50	amcorbasrefunc	Unique Capability	UNIQUE_CAPABILITY_REF	assets	core	Base	Reference	This table contains reference (domain) information about a grouping based on unique capabilities of an asset object
51	amcorbasrefuom	Unit of Measure	UNIT_OF_MEASURE_REF	assets	core	Base	Reference	This table contains reference (domain) information about a standard measurement used to quantify the capacity or size of an asset object
52	amfacbasnonfcd	Facility Detail	FACILITY_DETAIL	assets	facility	Base	None	In addition to the information found in the ASSET table, this table contains detailed information specific to an asset with a DoD asset class equal to two (facility)
53	amfacbasrefcsr	Construction Type	CONSTRUCTION_TYPE_REF	assets	facility	Base	Reference	This table contains reference (domain) information about the type of construction and design used for an asset object

KEY COL	TABLE PHYSICAL CODE	TABLE COMMON NAME	TABLE PHYSICAL NAME	SET NAME	CLASS NAME	SUBCLASS NAME	FAMILY NAME	DEFINITION
54	amfacbasrefmat	Material	MATERIAL_REF	assets	facility	Base	Reference	This table contains reference (domain) information about compounds, substances, and materials
55	amfacbasrefmau	Material Usage	MATERIAL_USAGE_REF	assets	facility	Base	Reference	This table contains reference (domain) information about a grouping of materials based on their function or purpose
56	amfacbasrefswt	Swing Type	SWING_TYPE_REF	assets	facility	Base	Reference	This table contains reference (domain) information about a grouping based on the swing direction
57	amfacblgarcacc	Access	ACCESS	assets	facility	Building	Architectural	This table contains information about architectural components excluding doors that provides accessability within, into, or out of an asset
58	amfacblgarcaur	Architectural Usage	ARCHITECTURAL_USAGE_REF	assets	facility	Building	Architectural	This table contains reference (domain) information about the types of uses or functions architectural components can perform
59	amfacblgarcclt	Classification Type	CLASSIFICATION_TYPE_REF	assets	facility	Building	Architectural	This table contains reference (domain) information about the class of wall usage determined by its structural integrity
60	amfacblgarccov	Conveyance	CONVEYANCE	assets	facility	Building	Architectural	This table contains information about architectural transport components which provide conveyance for human and material loads within, into, or out of an asset
61	amfacblgarcdor	Door	DOOR	assets	facility	Building	Architectural	This table contains information about a door component that provides passage within, into, or out of an asset
62	amfacblgarcfcr	Fire Classification	FIRE_CLASSIFICATION_REF	assets	facility	Building	Architectural	This table contains reference (domain) information about the NFPA fire hazard classification ratings of a wall in terms of flame spread and smoke developed. The rating classes are A, B, or C
63	amfacblgarcfut	Function Type	FUNCTION_TYPE_REF	assets	facility	Building	Architectural	This table contains reference (domain) information about a grouping of doors based on their operational type
64	amfacblgarchsr	Hardware Set	HARDWARE_SET_REF	assets	facility	Building	Architectural	This table contains reference (domain) information about a grouping based on a coded value defined by the designer that shall reference a specific hardware grouping back to the project specifications
65	amfacblgarcrof	Roof	ROOF	assets	facility	Building	Architectural	This table contains information about a roof or roof component that provides shelter and protection from the environment for an asset
66	amfacblgarcrsr	Riser	RISER	assets	facility	Building	Architectural	This table contains information about a riser
67	amfacblgarcwal	Wall	WALL	assets	facility	Building	Architectural	This table contains information about wall components that provide separation between spaces in an asset and or the environment

KEY COL	TABLE PHYSICAL CODE	TABLE COMMON NAME	TABLE PHYSICAL NAME	SET NAME	CLASS NAME	SUBCLASS NAME	FAMILY NAME	DEFINITION
68	amfacblgarcwin	Window	WINDOW	assets	facility	Building	Architectural	This table contains information about a window component providing visibility and passage into and out of an asset
69	amfacblgnonocn	Building Object Control Number	BUILDING_OBJECT_CONTROL_NUMBER	assets	facility	Building	None	This table contains information about the control numbers (serial, lot, etc. …) associated to a building object
70	amfacblgnonoco	Building Object Color	BUILDING_OBJECT_COLOR	assets	facility	Building	None	This table contains information about the colors of a building object
71	amfacblgnonofe	Building Object Feature	BUILDING_OBJECT_FEATURE	assets	facility	Building	None	This table contains information about the features that a building object possesses
72	amfacblgnonofi	Building Object Finish	BUILDING_OBJECT_FINISH	assets	facility	Building	None	This table contains information about the finishes of a building object
73	amfacblgnonolk	Building Object Link	BUILDING_OBJECT_LINK	assets	facility	Building	None	This table contains information about the associations of one building object to other building object
74	amfacblgnonolo	Building Object Location	BUILDING_OBJECT_LOCATION	assets	facility	Building	None	This table contains information about the location of a building object
75	amfacblgnonoma	Building Object Material	BUILDING_OBJECT_MATERIAL	assets	facility	Building	None	This table contains information about the materials from which a building object is made
76	amfacblgnonomu	Building Object Multimedia	BUILDING_OBJECT_MULTIMEDIA	assets	facility	Building	None	This table contains information about the external video, audio, or other multi-media representations which is associated to a building object
77	amfacblgnonoog	Building Object Organization	BUILDING_OBJECT_ORGANIZATION	assets	facility	Building	None	This table contains information about the organizations which are associated to a building object including those organizations, or agencys with legal control or management responsibility for the object
78	amfacblgnonosp	Building Object Specification	BUILDING_OBJECT_SPECIFICATION	assets	facility	Building	None	This table contains information about the specifications or characteristics of a building object that have a numerical value and a unit of measure
79	amfacblgnonost	Buliding Object Status	BUILDING_OBJECT_STATUS	assets	facility	Building	None	This table contains information about the status of a building object
80	amfacblgnonpho	Photo	PHOTO	assets	facility	Building	None	This table contains information about the photos of building objects
81	amfacblgnonpom	Building Person Object Milestone	BUILDG_PERSON_OBJECT_MILESTONE	assets	facility	Building	None	This table contains information about the event during a building object's lifecycle

KEY COL	TABLE PHYSICAL CODE	TABLE COMMON NAME	TABLE PHYSICAL NAME	SET NAME	CLASS NAME	SUBCLASS NAME	FAMILY NAME	DEFINITION
82	amfacblgrefgrt	Grade Type	GRADE_TYPE_REF	assets	facility	Building	Reference	This table contains reference (domain) information about a grouping based on the grade quality value of a building object
83	amfacblgreflkt	Link Type	LINK_TYPE_REF	assets	facility	Building	Reference	This table contains reference (domain) information about a grouping based on the relationships or associations between building objects
84	fmctrbasnonctr	Contract	CONTRACT	financial	contracts	Base	None	This table contains information about a contract
85	omcorbasnonadd	Address	ADDRESS	organization	core	Base	None	This table contains information about a sub-grouping of streets including the county, metropolitan area, congressional district and postal code where it is located, but not the number
86	omcorbasnondog	DoD Organization	DOD_ORGANIZATION	organization	core	Base	None	In addition to the information found in the ORGANIZATION table, this table contains detailed information specific to a DoD organization
87	omcorbasnonorg	Organization	ORGANIZATION	organization	core	Base	None	This table contains information about an agency, organization or company including contractors, vendors and manufacturers
88	omcorbasrefcdr	Congressional District	CONGRESSIONAL_DISTRICT_REF	organization	core	Base	Reference	This table contains reference (domain) information about an area having representation in a Congress
89	omcorbasrefcty	Country	COUNTRY_REF	organization	core	Base	Reference	This table contains reference (domain) information about countries
90	omcorbasrefcuy	County	COUNTY_REF	organization	core	Base	Reference	This table contains information about counties or parishes
91	omcorbasrefinl	Installation	INSTALLATION_REF	organization	core	Base	Reference	This table contains reference (domain) information about a single site or a grouping of two or more sites for the purposes of operational control
92	omcorbasrefins	Installation Site	INSTALLATION_SITE_REF	organization	core	Base	Reference	This table contains reference (domain) information about a contiguous geographical area owned or leased by an organization
93	omcorbasrefmet	Metropolitan Area	METROPOLITAN_AREA_REF	organization	core	Base	Reference	This table contains information about municipalities such as towns, cities, or villages
94	omcorbasrefogt	Organization Type	ORGANIZATION_TYPE_REF	organization	core	Base	Reference	This table contains reference (domain) information about a grouping of organizations based on their affiliation, mission, or similar characteristics
95	omcorbasrefpcr	Postal Code	POSTAL_CODE_REF	organization	core	Base	Reference	This table contains reference (domain) information about a code representing a particular mailing zone
96	omcorbasrefpct	Postal Code Type	POSTAL_CODE_TYPE_REF	organization	core	Base	Reference	This table contains reference (domain) information about a grouping of one or more postal codes based on their location
97	omcorbasrefsrc	Service Category	SERVICE_CATEGORY_REF	organization	core	Base	Reference	This table contains reference (domain) information about the branch of service within DoD

KEY COL	TABLE PHYSICAL CODE	TABLE COMMON NAME	TABLE PHYSICAL NAME	SET NAME	CLASS NAME	SUBCLASS NAME	FAMILY NAME	DEFINITION
98	omcorbasrefstr	Street	STREET_REF	organization	core	Base	Reference	This table contains reference (domain) information about streets but does not include any location information (county, state, country)
99	omcorbasrefstt	State	STATE_REF	organization	core	Base	Reference	This table contains reference (domain) information about states or provinces
100	omcorbasrefuic	Unit Identification Code	UNIT_IDENTIFICATION_CODE_REF	organization	core	Base	Reference	This table contains reference (domain) information about codes which represent a group based on their activity
101	ompepbasnonpsn	Person	PERSON	organization	people	Base	None	This table contains information about individuals including but not limited to personnel, contractors, and points of contact
102	ompepbasrefatr	Affiliation Type	AFFILIATION_TYPE_REF	organization	people	Base	Reference	This table contains reference (domain) information about the type of affiliation that a person could have with an organization, asset or object
103	wmcorbasnonwrk	Work	WORK	work	core	Base	None	This table contains information about work, work orders or service orders
